State Tax Commission Local Market Schedules

## State Tax Commission Local Market Schedules

- Locally Assessed Property Schedules due to county assessors by April 1st.
- County assessors certify the information on the Locally Assessed Property Schedules and send them to the county clerk, The Missouri State Tax Commission's Original Assessment Department, and back to the companies by April 20th.
- Companies will need the Locally Assessed Property Schedule certification to finalize and complete their Locally Assessed Market Value Schedules, due to The Original Assessment Department by May 1st.
- County clerks will use the information to ensure that they bill for all the property the company has in each county – operating and non-operating, locally assessed and centrally assessed.

# State Tax Commission Local Market Schedules

- The values reported on Locally Assessed Property Schedules should be directly reflected in the Locally Assessed Market Value Schedules. Every county where a company reports locally assessed value on the Locally Assessed Market Value Schedules must have an accompanying Locally Assessed Property Schedule.
