DECISION AND ORDER

Abrelia S. Davis (Complainant) appeals the St. Louis County Board of Equalization's (Respondent) decision valuing the subject residential property at \$150,000 as of January 1, 2023. Complainant alleges overvaluation and asserts the true value in money (TVM) of the subject property as “anything below \$150,000”¹ as of January 1, 2023. Complainant did not produce substantial and persuasive evidence establishing overvaluation. The BOE decision is affirmed. The TVM of the subject property as of January 1, 2023, is \$150,000.²

¹ Complainant’s Proposed value in the Complaint for Review was left blank. At hearing, Complainant answered that her opinion was anything under \$150,000. Tr. at 1:08.

² Complainant timely filed a complaint for review of assessment. The State Tax Commission (STC) has authority to hear and decide Complainant’s appeal. Mo. Const. art. X, sec. 14; Section 138.430.1, RSMo 2000. All statutory citations are to RSMo 2000, as amended.

The evidentiary hearing was held May 21, 2025, via Webex. Complainant appeared *pro se* via phone. Respondent Jake Zimmerman, Assessor, St. Louis County, Missouri, was represented by counsel, Kevin Wyatt. The case was heard and decided by Senior Hearing Officer Benjamin C. Slawson.

FINDINGS OF FACT

1. The Subject Property. The subject residential property consists of a single-family ranch style brick home built in 1957 on a lot located at 2 Northridge Hills Ct, Florissant, MO, 63033. The Parcel ID number is 08G210585. The total living space in the home is 1,495 square feet and includes three bedrooms and 1 full bathroom and two half bathrooms. Complainant purchased the home in 2008.

2. Assessment and Valuation. Respondent determined the subject property's appraised value was \$168,000 as of January 1, 2023. The BOE independently determined that the subject's appraised value as of January 1, 2023, was \$150,000.

3. Complainant's Evidence. Complainant introduced the following Exhibit which as all admitted without objection to admissibility:

Exhibit	Description
A	19 Pages consisting of Complainant's Complaint for Review and Letter, correspondence from the State Tax Commission, photographs of the subject, bid/proposal from Nash Heating and Cooling Services.

Complainant stated that her opinion of value for the subject property is anything under \$150,000.

Complainant testified that the property suffers from a major structural defect in the family room addition that was constructed in 1973. Rainwater is getting under the concrete slab floor and leaking into the basement. Ductwork exists under the slab floor in the family room. To address the water issue, the ductwork must be removed. Contractors have told Complainant that this would be very expensive. Some contractors refused to do the repair because of liability issues with the potential of water intrusion into other areas of the home. However, contractors have also told Complainant that the water intrusion at this time does not affect the habitability of the home.

Complainant submitted photos and an estimate in Exhibit A in support of these claims regarding the condition of the house. Complainant presented all of this evidence to the BOE at that hearing.

4. Respondent's Evidence. Respondent introduced Exhibit 1, consisting of the October 17, 2023, BOE decision letter for the subject property. Exhibit 1 shows the BOE valued the subject property at \$150,000.

5. Value. The TVM of the subject property as of January 1, 2023, was \$150,000.

CONCLUSIONS OF LAW

1. Assessment and Valuation. Residential real property is assessed at 19% of its TVM as of January 1 of each odd-numbered year. Sections 137.115.1; 137.115.5(1)(a). The TVM is "the fair market value of the property on the valuation date[.]" *Snider v. Casino Aztar/Aztar Mo. Gaming Corp.*, 156 S.W.3d 341, 346 (Mo. banc 2005) (internal quotation omitted). The fair market value is "the price which the property would bring from a willing buyer when offered for sale by a willing seller." *Mo. Baptist*

Children's Home v. State Tax Comm'n, 867 S.W.2d 510, 512 (Mo. banc 1993). "True value in money is defined in terms of value in exchange not value in use." *Tibbs v. Poplar Bluff Assocs. I, L.P.*, 599 S.W.3d 1, 7 (Mo. App. S.D. 2020) (internal quotation omitted). The TVM "is a function of [the property's] highest and best use[.]" *Snider*, 156 S.W.3d at 346. "Determining the true value in money is an issue of fact for the STC." *Cohen v. Bushmeyer*, 251 S.W.3d 345, 348 (Mo. App. E.D. 2008).

"For purposes of levying property taxes, the value of real property is typically determined using one or more of three generally accepted approaches." *Snider*, 156 S.W.3d at 346. The three generally accepted approaches are the cost approach, the income approach, and the comparable sales approach. *Id.* at 346-48. The STC has wide discretion in selecting the appropriate valuation method but "cannot base its decision on opinion evidence that fails to consider information that should have been considered under a particular valuation approach." *Id.*, at 348.

The comparable sales approach "is most appropriate when there is an active market for the type of property at issue such that sufficient data are available to make a comparative analysis." *Snider*, 156 S.W.3d at 348. For this reason, the comparable sales approach is typically used to value residential property. "The comparable sales approach uses prices paid for similar properties in arms-length transactions and adjusts those prices to account for differences between the properties." *Id.* at 347-48 (internal quotation omitted). "Comparable sales consist of evidence of sales reasonably related in time and distance and involve land comparable in character." *Id.* at 348.

2. Evidence. The hearing officer is the finder of fact and determines the credibility and weight of the evidence. *Kelly v. Mo. Dep't of Soc. Servs., Family Support Div.*, 456 S.W.3d 107, 111 (Mo. App. W.D. 2015). "Although technical rules of evidence are not controlling in administrative hearings, fundamental rules of evidence are applicable." *Mo. Church of Scientology v. State Tax Comm'n*, 560 S.W.2d 837, 839 (Mo. banc 1977).

3. Complainant's Burden of Proof. The taxpayer bears the burden of proof and must show by a preponderance of the evidence the property is overvalued. *Westwood P'ship v. Gogarty*, 103 S.W.3d 152, 161 (Mo. App. E.D. 2003). The BOE's valuation is presumptively correct. *Tibbs*, 599 S.W.3d at 7. The "taxpayer may rebut this presumption by presenting substantial and persuasive evidence that the valuation is erroneous." *Id.* (internal quotation omitted). The taxpayer also must prove "the value that should have been placed on the property." *Id.* "Substantial evidence is that evidence which, if true, has probative force upon the issues, and from which the trier of fact can reasonably decide the case on the fact issues." *Savage v. State Tax Comm'n*, 722 S.W.2d 72, 77 (Mo. banc 1986) (internal quotation omitted). Evidence is persuasive when it has "sufficient weight and probative value to convince the trier of fact." *Daly v. P.D. George Co.*, 77 S.W.3d 645, 651 (Mo. App. E.D. 2002); *see also White v. Dir. of Revenue*, 321 S.W.3d 298, 305 (Mo. banc 2010) (noting the burden of persuasion is the "party's duty to convince the fact-finder to view the facts in a way that favors that party").

Property owners are competent to testify to the reasonable fair market value of their property. *Cohen*, 251 S.W.3d at 348. However, if owner's testimony is based on "improper

elements or an improper foundation[.]" it is not substantial and persuasive evidence rebutting the presumptively correct BOE value. *Id.* at 349.

4. Complainant Did Not Produce Substantial and Persuasive Evidence of Overvaluation.

Complainant did not produce substantial and persuasive evidence to support her opinion of value. Complainant introduced no evidence pertaining to a recognized valuation method. Complainant did not produce any evidence supporting a comparable sales approach, income approach, or cost approach.

The comparable sales approach is typically used to value residential properties improved with a single-family home. "The comparable sales approach uses prices paid for similar properties in arms-length transactions and adjusts those prices to account for differences between the properties." *Snider*, 156 S.W.3d at 347-48 (internal quotation omitted). Complainant did not offer any comparable sale data for consideration. Complainant did not offer testimony of an appraiser, nor an appraisal of the property as evidence of the TVM of the property as of January 1, 2023. Therefore, Complainant did not produce substantial and persuasive evidence showing that the subject property was overvalued based on comparable sales data.

Complainant testified at length regarding the problem with the duct work underneath the family room addition of the subject property. However, Complainant neither demonstrated that the BOE's valuation fails to take into account this issue when it valued the subject. The fact that it lowered the valuation from \$168,000 to \$150,000 tends to show that the BOE did take these issues into account. Additionally, while Complainant

offered photographs and a bid from a contractor to repair these issues, Complainant did not provide proof of the specific monetary impact that these condition issues have on the TVM of the subject property as of the valuation date, January 1, 2023.

Complainant did not produce substantial and persuasive evidence showing that the BOE's value was incorrect. Further, Complainant's testimony does not provide the necessary foundation and elements to support her overvaluation claim. Because the STC "cannot base its decision on opinion evidence that fails to consider information that should have been considered" under a recognized approach to value, *Snider*, 156 S.W.3d at 348, the BOE decision is affirmed.

CONCLUSION AND ORDER

The BOE decision is affirmed. The TVM of the subject property as of January 1, 2023, is \$150,000.

Application for Review

A party may file an application for review of this decision within 30 days of the mailing date set forth in the certificate of service for this decision. The application "shall contain specific detailed grounds upon which it is claimed the decision is erroneous." Section 138.432.
